SECOND PRELIMINARY AMENDMENT

Sir:

Please amend the above-identified patent application as follows:

In the Claims:

Please add claims 28 – 36.

28. (New) A biocompatible device which communicates electrical signals with tissue in a living body, comprising:

an integrated circuit, said integrated circuit comprising a semiconductor substrate having at least one surface on which electronic circuitry is formed; electrodes for contacting the living tissue which are formed on said at least one surface of said semiconductor substrate; means for electrically connecting said stimulator electrodes with said electronic circuitry formed on said at least one surface of said semiconductor substrate;
